

## UHS FLU SHOT CLINIC 2022

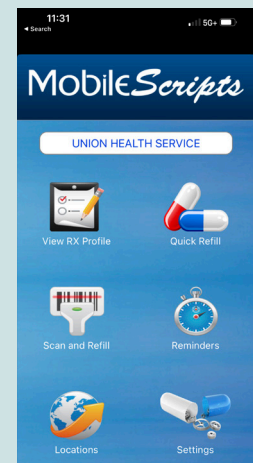

Saturdays | 10/1-12/17 | 8a-2pm  
Polk St. Clinic Only | Ages 5 & Up

**Appointment REQUIRED.**

Flu Shots are also available during your doctor's appointment at all of our UHS locations. Pediatric patients should confirm time with their primary care physicians and children under 5 years old need an appointment.

## UHS PHARMACY NEWS

**MobileScripts**  is a new application that is available to request refills.

**What does that mean to you?**

Now patients can request refills at UHS via phone, UHS internet or a specific application (MobileScripts) that can be downloaded onto their cell phone.

For more information on UHS locations please refer to our website [www.unionhealth.org](http://www.unionhealth.org).

## SEASONAL FLU

Influenza, commonly known as “the flu” is a serious disease that can lead to hospitalization and even death.

It is estimated that up to 20% of the U.S. Population gets the flu, and more than 200,000 are hospitalized for flu-related complications each year.

Flu season can start in October and last well into the spring, with the peak between December and February. While the CDC recommends an annual flu vaccine for everyone six months of age and older, certain types of workers are at a higher risk, this includes individuals who provide care.

Please inquire at your next appointment at UHS or you can call the Member Service Department 312-423-4200 x3285 to schedule your annual flu vaccination.

## PATIENT SATISFACTION SURVEY

Union Health Service (UHS) conducted its first electronic patient satisfaction survey to SEIU Local 1 & Participating Employers Health Trust (formerly known as SEIU Local 25 Health Fund). Thank you to everyone who completed this year's survey. Your survey results help UHS identify your patient expectation, how well the patient is being treated and effectiveness of your health plan.

UHS is currently surveying Local 1 SEIU (Service Employees International Union). The next survey group will be SEIU Healthcare after the new year. Thank you members for completing the surveys!

### Primary Care Physician (PCP)

Your PCP is a crucial element of your health care. The PCP is your gatekeeper not only directing your care, but also implementing your treatment plans. It is critical to develop a relationship and trust with your PCP. This engagement can lead to a more productive visit for you and your family. Please schedule your annual wellness visit with your PCP by calling the UHS Member Service Department to schedule your visit or get an assigned PCP.

## DO YOU WANT TO QUIT SMOKING?

Did you know UHS offers smoking cessation services? Hanh Vuong, PharmD (Clinical Pharmacist) offers a clinic for behavioral and medication therapy to help our members quit smoking. Talk to your primary care physician.
